

Adding Web Shortcuts to the Desktop

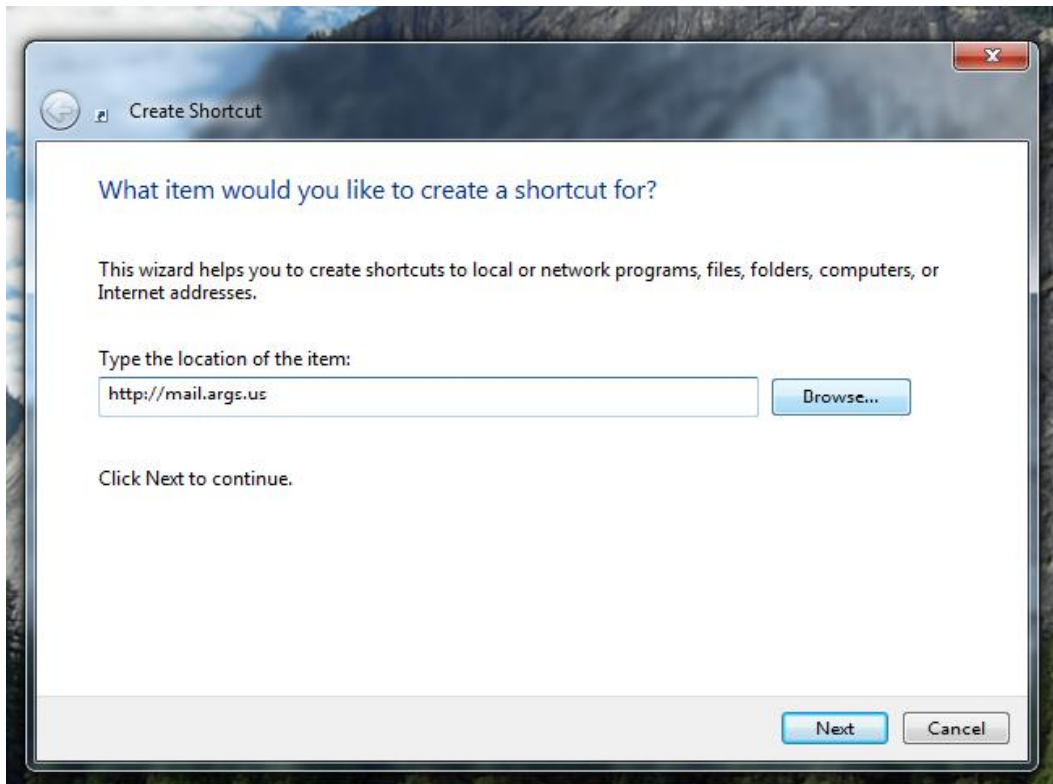

1. Right click on the desktop.

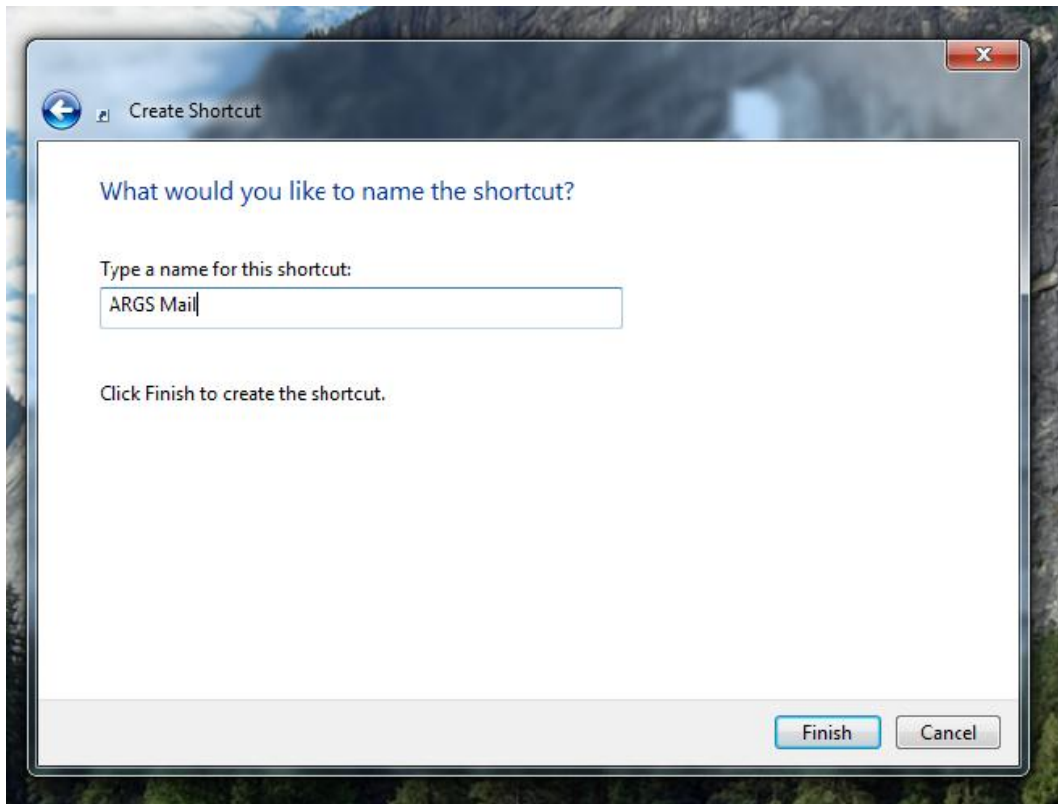

2. Point your mouse to New > then select "Shortcut".

3. Type the web address you would like to add the shortcut for (e.g. <http://mail.args.us>) then click "Next".

4. Type a name for the shortcut (e.g. ARGS Mail). Click “Finish”.

5. A new icon will appear on your desktop (the icon will differ from the one shown based on your default Web Browser).

6. Double-clicking this icon will take you to the URL you specified. (In this example, you are taken to the ARGS Email page.)
